

Acrylic and Mixed Media Abstract Workshop

By

Marlene Gremillion

This is a 4-5 day intense workshop working on a variety of surfaces texturing, designing, collaging and painting. We will be working mainly with acrylic paints, spackling and additive items. I like the more fluid acrylics. These will be applied over a gesso canvass or MDF gesso board in a random manner and then manipulated with the brush, spraying water or pushing with rubbing alcohol. It is exciting to see the various results you can accomplish. There will also be some build up work with spackling or modeling paste, collage and found objects.

Extra design factors will be applied with paint or rub on colors to bring out an interesting area by adding what I call glitz.

Students will work on quite a number of pieces in various progressions while pieces are in the different drying stages. There is a \$10 material fee payable to the instructor the first day of the workshop. (Marlene brings a lot of stuff for students to use)
