

Mixed Media in Pastel Mini Workshop

In this abstract workshop students will learn to collage with tissue papers, imitation gold leaf, use pumice and gesso, possibly spackling, and stencils creating interesting textures on which to apply pastels. Found objects as accents like rust pieces, ceramic focal, maybe old jewelry or family collections may be added. This will be a truly experimental class letting your imagination loose! I

will provide metal leaf, pumice, surface treatment, glue, and spackling. I will bring a variety of papers to use for collage. Below are the other supplies you will need.

Supplies

- I prefer 130 lb. watercolor paper about 8x10 or 11x14" size approximately 2 - 3 sheets.
- If you have oriental papers of varied colors and textures, please bring them. Tissue paper could be interesting also (I will bring some paper varieties to share)
- Stiff brush for applying glue or medium for collaging (cheap small painters brush from hardware store)
- If you have a hard brayer, it might come in handy
- Small mixing cups or plastic bathroom disposable drinking cups
- Paper towels
- Wet ones or baby wipes
- Brushes for applying paint and gesso (cheap utility brushes not good ones)
- Hair dryer
- Pastels (chalk not oil pastels) we do have some extra to share
- Found objects that you think you might use
